Subject: DBA MSDS

Stan,

At our meeting on 9/2, you requested a copy of the DuPont MSDS for DBA. The DuPont website has an informative description of DBA and the MSDS, which are located at:

<http://www.dupont.com/intermediates/product/dba.html>

<<http://www.dupont.com/intermediates/product/dba.html>>

We envision adding the DBA to the limestone slurry storage tank on the unit testing the pet coke.

If you have trouble reaching this site, please let me know and I can send a printed copy.

Thanks
Bill
